Rev. Caroline E. Angell

Rev. Caroline E. Angell, a well known Universalist minister, passed away in Portland Wednesday, March 28, at 8 p. m., pneumonia being the direct cause of death, her age being 75 years. She was born in Smithfield, R. I., June 28, 1842. After receiving an academic education and graduating from the St. Lawrence University at Canton, N. Y., in 1876, she accepted a pastorate at Kittery, then to Pittsfield, coming to Norway in 1884. For twenty-one years she labored with marked success in this and surrounding towns, until she resigned for a smaller parish at Freeport in 1906. At the end of six years, failing health caused her to give up all active duties and since 1912 has been in the home of L. E. Porter at Portland.

Funeral services and burial will be in her native town, Smithfield, R. I. Miss Angell is survived by a sister, Mrs. A. K. Jordan of Philadelphia, and a nephew, I. A. Morey of East Hampden, Mass. A brother, who was connected with the Pullman Car Company of Chicago, died but a few weeks ago. Miss Angell was the oldest woman minister in New England. She died at the home of Mr. and Mrs. Linwood E. Porter of 542 Stevens avenue, Portland, with whom she had been passing the winter.

Josephine F. Hemingway
Mrs. Josephine F. Hemingway, widow of John Hemingway, formerly of Milton, died in Norway, March 27 of pneumonia. She came here some three months ago and lived with a sister, Mrs. Sarah Page, on Danforth street.

She was born in Peru, May 19, 1851, the daughter of Peter and Experience (Howe) Hopkins. One sister, Mrs. Page, four daughters and four sons survive. They are Mrs. B. H. Abbott of Bryant's Pond, Mrs. Ira Whitman of Mexico; Mrs. Charles H. Herk of Norway; Mrs. Ida Whitman of Bryant's Pond; Mrs. Leoban; Guy D., and John of Bryant's Pond and Cleve of Milton.

Services will be held Friday afternoon at 1 o'clock in the home of Mrs. Sarah Page. The remains will be taken to Milton for burial.

Fire Protection Investigated
By request of interested officials of the Norway Village Corporation, John E. Shennett of Boston, a special agent of the New England Insurance Exchange inspected the fire protection situation here Tuesday and Wednesday.

Chief engineer John P. Cullinan, Dennis Pike for the Water Company, and the inspector made the rounds together. They looked over the several hose houses and equipment, also located and tested the hydrants for pressure records in several localities.

Selectman George F. Hathaway was taken into consultation at the conclusion of the trip. Several changes were recommended, additional hydrants in certain districts being considered the greatest need if lower insurance is desired. This survey is for the purpose of locating defects if they exist, and thereby secure a lower insurance rate in the corporation, when full protection can meet the requirements of the class in which we must be listed.

Mrs. M. L. McCrellis, who formerly lived on Paris street, but has been making her home with her daughter, Mrs. Charles Colwell at South Hancock, was operated on March 23, at the Bar Harbor Hospital. She is reported comfortable as could be expected.

An electric tree wire grounded in a large elm tree opposite Witherell Park during the heavy rain storm Tuesday night. The wire broke and fell to the street, where it lay six inches in diameter. It was burned nearly through. A cable was in working order late in the forenoon Wednesday.

Dr. Irwin K. Moorhouse left Tuesday for a short visit to New York. Before his departure he had important business at the town clerk's office, where marriage certificates are usually secured. Congratulations will be in order on "their" return.

Arrangements are being made for a wrestling match between Homer Truman and J. G. Brown, the latter being champion of the world. Brown is listed at 158 pounds, and a hard fellow to throw.

The following is the schedule of the Norway High School baseball team:

May 22—N. H. S. at Rumford.
May 23—N. H. S. at Goulds.
May 24—N. H. S. at Paris.
May 25—N. H. S. at N. H. S.
May 26—Goulds at N. H. S.
May 27—Rumford at N. H. S.
May 28—N. H. S. at Edward Little.
May 29—Paris at N. H. S.
May 30—Portland at N. H. S. (Pending)

There is a demonstrator of the "Lux" at Drake & Brooks' this week.

The M. E. Sunday School Department Workers will meet at the vestry Wednesday, April 4, at 7:30. There will be a review of lessons, entertainment and refreshments. It is desired that all members be present.

Edith Rideout, teacher at Rockland, is spending the vacation with her mother, Mrs. Rose Rideout and sister, Florence. C. Elmer Russell has been at home this week suffering from an attack of pneumonia. He is working for the Millett Bros. and gave up only when it was impossible to keep moving. He is gaining and serious consequences are not expected.

Mrs. Clara Bradbury is spending a few weeks with her sister, Mrs. Alfred Hebard, on Tucker street.

LOCAL PICK UPS, ETC.

Plow every available foot of ground this spring. Food stuff is needed.

War is coming and this means waste, destruction, poverty and sorrow. Prepare for it.

Paint your rubber boots black and be less conspicuous! Harry Lovejoy was offended when I told him this.

Trouble in the house of Stearns on Orchard street! National flag was floating upside down last Monday. Sorry for the Colonel.

Kitchen gardens will help to reduce the high cost of living. Cut out the movies and quit burning gasoline for pleasure riding.

Opinions vary as to the wintering of our permanent street. Some contend it is better than the cold spell O. K. Others think differently.

The legislature has been wrestling with water and women and now it is struggling with war defenses. Hope it expressed it may soon adjourn.

A nice leather traveling bag, a present to Tom Raymond, was plucked with contents from him on his last visit to Boston. He set the bag down in a hotel office and when he turned round to pick it up, it wasn't there and hasn't been seen by him since.

"Have you any up-to-the-minute local cuts?" was breathlessly asked by a dep. portland chap, who is working up a Norway Special for the State Board of Trade Journal. We have no such animals about this shop, but all half-tones will be cheerfully loaned.

"If your husband gets well it will be a miracle and you know miracles don't happen in these days," was the remark made by a Portland specialist to Mr. F. Q. Elliott a year ago over the condition of her husband. Jack is now very much alive and goes to the post office every day. His health is better than for several years past. Was it a miracle or a mistake on the part of the physician?

School roll of honor appears in the paper. I have been seeing the hope of seeing it "true and perfect" before, but the Upper and Middle Primary schools give only "baby names" and again I'm disappointed. The children deserve to appear in their legal names in the paper. It can't be that there are no pupils in those two schools who are "the roll of honor" and have no middle names.

Frank H. Hurd has a blacksmith shop equipped with modern tools. In the upper story he has power wood working tools for the manufacture of heavy running gear. I recently saw him putting together an auto truck body. Lou Cushman. Every screw was dipped in white lead and the joints are water tight. Frank doesn't drive screws with a hammer, but he does two days' work in each ten hours and has the best equipped shop in this county.

"There is no cord in that pile. Do you think it?"
I said it looked small, and added, "If you get seven feet for a cord you must be satisfied."

A few days later I met the complaining man and he said, "I've piled over that wood and measured it and will you think it, it's an honest cord and you and I guessed wrong."

Measuring wood with the eye is dangerous, it is common practice to claim shortage.

E. F. Bicknell's health is much improved over last winter. He has quit using water that runs through a lead pipe. A year ago he was pretty much shortened up and it was with difficulty he got about. It was called rheumatism. One day he was found lying on the floor, stopped using lead pipe water with results as stated.

Mother has built the fire for many years and has become an expert. I've rather encouraged her in so doing. Some day she will roll down wood up old newspapers and lights it and away goes the blaze without let or hindrance.

When I'm permitted to meddle in such affairs it acts very differently and refuses to burn. Recently I was given a lesson. It is so simple I'm to inform our readers.

Roll the small cleft wood loosely in old newspapers; fold one end up over the end of the wood, leaving the other end of the paper open and nearest the draft, touch match to closed newspaper end and the chimney draft will do the rest.

A modern 16 page paper is ample, if properly rolled round dry wood, to start a fire, but you must know how. Mother will show you.

Oxford Castle, No. 2, Knights of Golden Eagle, held their 14th anniversary party, Wednesday evening in K. of P. hall. Ladies' night was observed with about thirty-five couples present. Milken's orchestra, five pieces, furnished music for dancing. Card games were also in order and a buffet lunch was served at intermission.

Harry Goodwin has retired from poultry raising, having sold the business to his brother, Archie Goodwin. Right hundred chickens came out Saturday and more are due shortly.

Solon Moore is visiting relatives and friends in Bethel.

FISH AND GAME ANNUAL MEETING

It will be held at the Municipal Court room next Monday evening at 7:30 and all members are expected to be present. Reports for the work of last year will be made and plans for this year will be outlined.

LOCAL FRUIT GROWERS' MEETING

It will be held at Grange Hall, Norway, Thursday, April 5th, commencing at 10:30 a. m. Members of the Maine Pomological Society will be present and all the speakers will be familiar with fruit conditions as they exist in this state. The principal subject under discussion will be "Better Care of Fruit Trees and better apples and a better market."

Demonstrator, George A. Yeaton, will have charge and a profitable meeting is assured.

Come so as to stop all day.

Strong Wrestling Show Coming

Promoters Tom Raymond and L. M. Carroll have a strong, attractive wrestling bill for the Opera House, Norway, next Tuesday evening, April 3.

Homer Truman, the Norway strong man, has agreed to meet "Kid" Bolduc of Salmon Falls, N. H., champion light weight of New Hampshire. Truman must throw the snappy little mat artist in the time within an hour to meet the requirements of the match. The "Kid" made a hit at the last show with his skill and knowledge of leg action, so the pair should make all sit up and take particular notice. Many question whether or not the Maine champion is keener and more alert in their studies, and the customary dull, sleepy afternoon has been eliminated.

Homer Truman expects to go on in a wrestling exhibition Saturday evening at Riverside Theatre, Bridgton. Ed Dyer is the promoter.

The annual weighing of mails at the post-office will begin Mar. 27 and continue 105 days.

Clayton Buck of East Sumner, who has been caring for her grandmother, Mrs. Volesta Kimball, for three weeks, returned home Saturday, as the patient is recovering rapidly and able to sit up several hours every day.

Leola Smith is spending the school vacation with her parents in Auburn. The Public Utilities Commission have ordered a hearing at the court house in South Paris, April 11 at 10 o'clock in the forenoon to investigate the complaints against the Oxford Electric Company.

Dr. Delbert M. Stewart and fifteen other South Paris residents allege that the rates and schedules of prices for electric energy sold are unreasonable and unjustly discriminating. The company deny these charges. They claim the rates in effect are only just and right, yielding but a fair return on the large investment. Norway patrons should be interested in this matter.

The Annual Whitman Chapter, D. A. R., will hold their monthly meeting with Executive Barker, Wednesday evening, April 4, at 7:45 o'clock. The program will be roll call, current events; paper, "Origin of Fast Day"; Mrs. Lucelia A. Merriam; paper, "The Pan-American Peace Movement"; Mrs. Jennie C. Foster.

Francis Andrews at Dartmouth College has joined the military training school.

The tickets for the Daughters of the American Revolution ball on Thursday evening, Mar. 29th, at Norway Opera House, have sold well. The committee in charge announce. The proceeds will be used for patriotic purposes. The Daughters are making every effort for a "good time."

School Announcements

Norway schools commence on the spring term Monday, April 9. Schools in Watford begin April 23.

Edith Millett has been transferred from the Chapel district to the Center. No spring session will be held at Noble's Corner, so all scholars will be transported to Swift's Corner.

Mrs. Harriett M. Spiller of Mechanic Falls will teach the eighth grade. She comes highly recommended, having had several years' experience in the complete grammar school work and thoroughly efficient.

The transporting scholars from Norway Lake to the village has been discontinued by the school board. A census was taken among the pupils concerned by this change, and nearly all have signified their intention of continuing in the grammar grades, finding somehow a way to get down. This speaks strongly of two things on their part, a typical New England determination to learn, and good sense by picking the best advantages even at a physical sacrifice. Truly no better endorsement of the system now offered in the High building could be desired.

Many local rural teachers have been investigating the warm lunch idea as in operation at Crockett Ridge school. Both Supt. T. C. Morrill and the teacher, Ruth Holgate, have worked hard for the success of this innovation and have received the healthy cooperation of all parents in the district. Observations show that greater progress has been made along the whole line since the warm dinner plan started. The students are keener and more alert in their studies, and the customary dull, sleepy afternoon has been eliminated.

Homer Truman expects to go on in a wrestling exhibition Saturday evening at Riverside Theatre, Bridgton. Ed Dyer is the promoter.

The annual weighing of mails at the post-office will begin Mar. 27 and continue 105 days.

At this time a flag will be dedicated which was given to the church by the Men's Bible Class. It will be placed on the platform with appropriate exercises.

An interesting collection of pictures are being shown in the window at the N. Dayton "Bolster" Co. store. They are stereoscopic views and other photographs taken in South Paris years ago, showing street scenes and a number of the largest buildings, including the old Oxford Norway Institute. Some of the views date back nearly fifty years, and have an entirely unfamiliar look to the present generation.

The Philatheas of the Baptist Sunday School held their annual banquet at the vestry of the church Monday evening. After supper a short program of music and readings was enjoyed. A social time followed.

Savings Bank Annual Meeting

The annual meeting of the incorporators of the South Paris Savings Bank was held at the banking rooms of that institution last Thursday when the old board of officers and trustees were re-elected for the ensuing year. The report of the treasurer showed the bank to be in most excellent condition; the total assets at this time being \$482,518.77 with deposits of \$450,373.20, a net gain in deposits during the year of \$25,863.99 and a net increase in the number of accounts of 214. About \$7,000 has been raised by the committee appointed by the South Paris Board of Trade for the shoe factory. Business houses are expected to sign up the \$3,000 more that are needed before a start in that direction can be made.

Charged With Stealing Rubbers

To live a things up a little for those court attendants who were well toward the end of the second week, a mock trial was held in the court room Thursday evening. Deputy Sheriff Frank F. Woodside of Fryeburg was tried on the charge of stealing a pair of rubbers. Deputy Sheriff Leon M. Small of Mexico was judge, Bellevue of Rumford and Berman of Lewiston were the attorneys, and all the court officers were filled. While mainly impromptu, and rather light comedy, the trial furnished a lot of amusement for an audience which pretty well filled the room. A collection was taken which will go to the Belgian relief fund.

The Rev. Edward W. Brewster of Biddeford preached at the Deering Memorial Church Tuesday and Wednesday evenings. He will be present Thursday and Friday nights. These services will be introduced by the Lenten Mission and continued until Easter. Mr. Brewster is a preacher of rare ability.

A five horse power electric motor deriving its current from the Oxford Electric Co.'s wires will operate a large new threshing machine besides the one Mr. Miller purchased and used last season. The plant will be up to date in all particulars including winnowing and cleaning apparatus, scales, etc. Mr. Miller will thresh about twenty acres in bush and pole beans for seed and market purposes, which with the product of other bean fields and gardens in Norway and Paris will keep the threshers quite busy this fall.

Others more wise are working at odd jobs, making themselves generally useful around town.

BRYANT'S POND

Surprise Birthday Party

The love and good fellowship which is held toward Mrs. Harry Estes by her neighbors and friends was demonstrated for her on March 23, when about 55 gathered at her home in the way of a birthday surprise party, and a complete surprise it was, both to Mr. and Mrs. Estes. Mrs. Estes was away for an hour and when she returned she found her home filled with guests.

After all the guests had arrived and the greetings were over, a birthday box was presented to Mrs. Estes by Mrs. Delerene Cole, who addressed a few fitting remarks in the presence of all.

Amid surprise, appreciation and gratitude, Mrs. Estes opened the box and found that it contained a beautiful ruse in colored silk dress with white trimming, a silk waist, several small articles and a small piece of silver coin. At the request of her guests, Mrs. Estes donated her new dress and was heartily applauded by the crowd.

After the excitement had subsided, all joined in singing for some time, with Mrs. Eugene Stoor as organist.

In due time refreshments of cake, cottage cheese, and cakes, that were a credit to the culinary art was served Mrs. E. A. Record and Mrs. Fred DeShon taking the place of hostess and they filled it to perfection.

Among those present were Mrs. Eugene Stone, Mrs. Delerene Cole, Mrs. A. C. Chase, Mrs. Willard, Mrs. Alice Coffin, Mrs. Freeman Morse, Mrs. Fred DeShon, Mrs. Fred Farnum, Mrs. James Farnum, Jr., Mrs. Evie Lakin, Mrs. A. C. SLEEPLESSNESS Often goes with INDIGESTION

If you eat a hearty meal at night, especially when tired at the end of a hard day, and then go to bed after sitting quietly in a close room for a few hours, troubled sleep is quite likely to follow. If you can get the habit of taking a brisk walk of thirty or forty minutes in good fresh outdoor air after supper, you are less likely to suffer from disturbed sleep or nightmare.

But, if the weather should prevent the walk, a teaspoonful of "L. F." Atwood's Medicine will aid digestion, your sleep will be more peaceful and you will not suffer from constipation. All dealers sell it, 35 cents large bottle. "L. F." Medicine Co., Portland, Maine.

STUART GOODWIN, Town Clerk.
Norway, Me., March 15, 1917.

SUPREME JUDICIAL COURT.

Thursday afternoon considerable business was ground off, preparatory to heavy work which was to follow.

The trial of Ernest Marchand of Mexico began on a charge of larceny of several things belonging to the Oxford Paper Co. Mr. Marchand has been for some time in the employ of the company. A quantity of used paper machine felts, bedding, brooms and other articles were introduced, and officers testified to finding them at the Silver Lake House in Roxbury, owned by Mr. Marchand. Mr. Marchand's wife, who is not now living with him, testified regarding his bringing home some of the goods. At the conclusion of the state's case there was a conference by Judge Hanson, County Attorney Blanchard, and the court attorney. The case was continued, and Surace paid a fine of \$100 and costs in an appealed case.

In the case of George E. Nason, indicted for maintaining a sporting camp without license, an arrangement was made whereby the respondent pays the costs and complies with the requirements of the law as to license and payment to the state on the lease of his land, which is part of the public lands.

A second action against Mrs. Gladys LaFlamme was an indictment for keeping a house of ill fame. This was a thriller, drawing a large crowd to hear the somewhat unusual testimony. Before the case was begun, Judge Hanson ordered that minors be excluded from the court room, and announced for the benefit of the considerable number of ladies present that there was likely to be objectionable testimony, and there would be an opportunity for any who desired to leave the room. Two or three left.

The witnesses for the state were the same as in the nuisance case against Mrs. LaFlamme, and most of the testimony related to the same occasions, though it was along rather different lines. Three young girls gave testimony as to the representations made by Mrs. LaFlamme to them. The girls said that Gladys showed them what easy money she was making, and told them they were foolish to be working in the bag mill at small wages when they could be making lots of money.

The defense was a general denial. Mr. Berman was counsel for the defense and worked hard to cast reflections on the girls that would break up the effectiveness of their unusual disclosures. The jury was out about forty minutes before returning a verdict of guilty.

Judge Hanson in this case imposed a penalty of sixty days in the county jail. Mrs. LaFlamme was arraigned and pleaded nolo contendere on three other indictments, for common seller, maintaining a house of ill fame in Mexico, and enticing girls, and all were continued for sentence.

In the case of Charles Starbird, indicted for willful trespass, a nol pros was entered by the county attorney.

The indictment against Charles DeCoster for assault was not pressed on payment of \$10.

James Higgins pleaded guilty to an indictment as common seller. It having been shown that he had paid the penalty imposed in the lower court for what was practically the same offense, the case was continued.

The case against John Clancy, who had pleaded guilty to the larceny of a team, was continued. The respondent has been in jail about three months.

Russell Linn, who had been convicted of assault on Xavier Ewins and Robert Irving, who had pleaded guilty in the same case, were sentenced to thirty days in jail, they already having been there about twenty-six days.

It required less than an hour Friday to dispose of the Albert B. Bean case. The prisoner had been indicted for the murder of his eighteen-year-old daughter, Inez Bean, at Waterville, December 6, 1916. An illegal operation having been performed in a manner causing sudden death it was charged.

Bean was brought in and placed in the dock at a little after 2 o'clock. He is a man of fifty, rather tall and spare, of generally mild manner. He showed keen interest in the proceedings, but displayed no emotion.

Clerk Ernest J. Record read the indictment, and in response he replied, "Not guilty as charged, but guilty of manslaughter."

Hon. James S. Wright, who had been appointed by the court as Bean's counsel, addressed the court briefly in his behalf. He said that Mr. Bean has a family consisting of a wife who is in rather delicate health and six boys two of whom are small, and the father is the only support of these dependent members of the family. He has never before been accused of any crime. Without extenuating the crime to which he has pleaded guilty, it may be said that under the provisions, the minimum may be placed low enough so that he may yet be a help to society and to those who need him. It is not the severity of the punishment, but its certainty, that is effective.

Alton C. Wheeler, who was associated with Mr. Wright in the defense, spoke briefly, urging that the minimum sentence should be placed low to enable the respondent to be of some future usefulness.

Bean was given the opportunity to say something if he wished, but did not desire to do so.

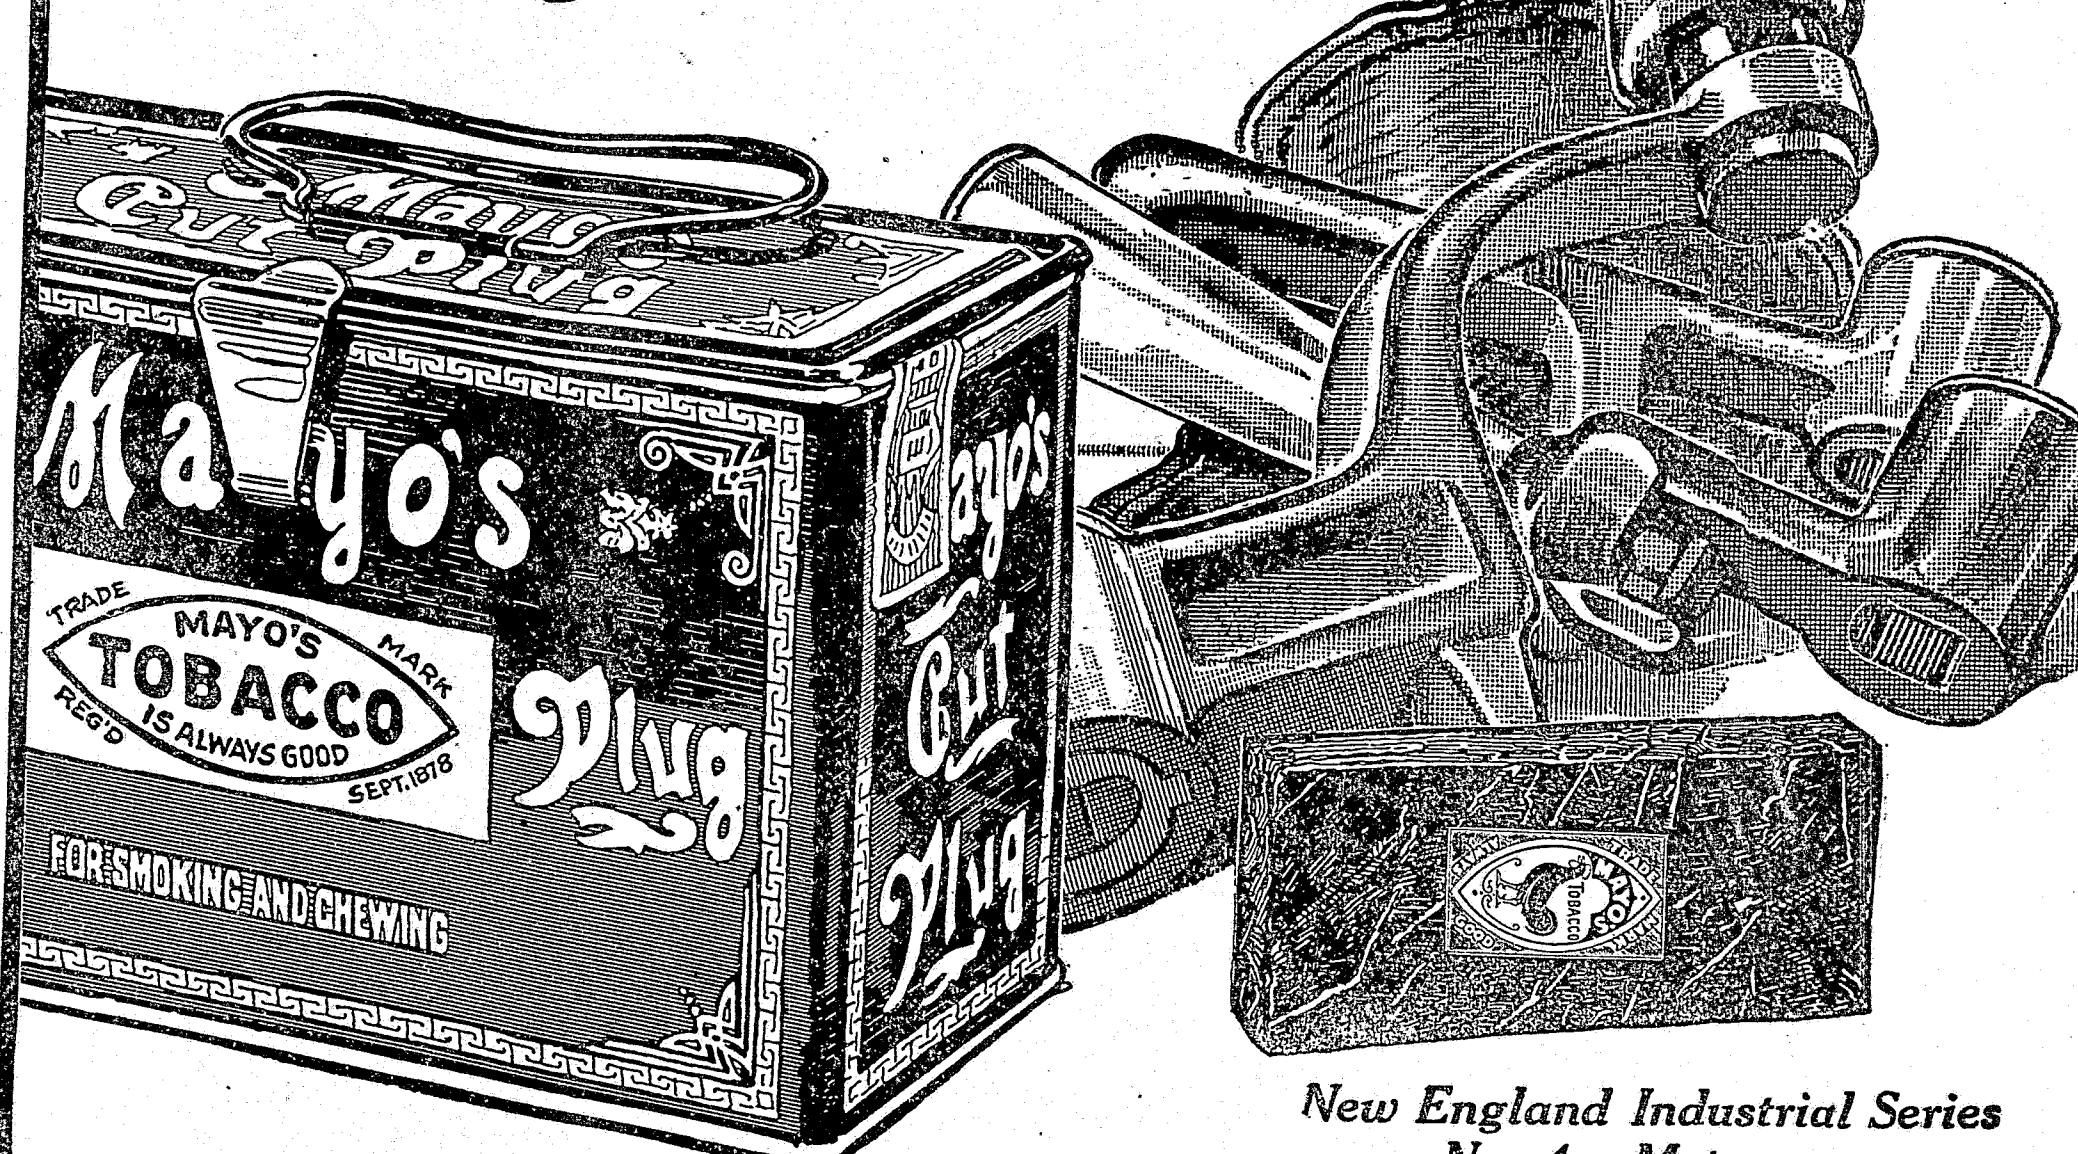

County Attorney Blanchard said that he felt the responsibility of accepting a plea of manslaughter for the state in this case, and taking into consideration the fact that the respondent caused the death of his own wife, he felt that the penalty should be the heaviest provided in the law.

In order to make the record of the case complete, Professor Frank N. Whittier of Bowdoin College was called to state the cause of death. Certain organs of the dead girl were sent to him for examination. He described their condition, and stated that in his opinion death was caused by a puncture in the wall of the uterus, where the blood vessels are numerous, admitting air bubbles into the blood, which caused a foamy condition of the blood, and interfered with the action of the heart.

Judge Hanson then, without comment, imposed a sentence of not less than eight nor more than twenty years in state prison.

Frank Newton of Camden, who formerly spent several winters in this vicinity, has been visiting his uncle, Eugene D. Gray, during the past week. Also visited other relatives and friends whom he had not seen before for twenty-one years. He was warmly welcomed by all.

Carls have been received from Portland, Oregon, announcing the arrival of Henry Buck, Jr., on March 13, to the home of George H. Buck, M. D.

Through a mistake of the writer and not of the family, in the list of flowers in the obituary of Dana G. Rogers of Naples, a beautiful spray of Calla lilies given by his friend, Charles C. Doughty of Harrison, was omitted.

Howard Randall recently sold two of his registered Durham calves to Chester Bragg and Arthur Bell of Waterford.

A PLEASING SURPRISE

If you are sore and aching from a sprain, strain, burn, bruise, or muscular rheumatism, it is extremely pleasing to learn, after you have secured something advertised to relieve you, that your affliction, that not only have you obtained a preparation that is excellent for external use, but also one you can safely and unhesitatingly use internally for coughs, colds, sore throat, cramps, chills, etc., if necessary to have the soothing and healing qualities go directly to the seat of an internal trouble. Most liniments, for example, have only one value—external use—but in case, say, of the well known Johnson's Anodyne Liniment, the double value—internal and external use—is there.

This splendid preparation, from the prescription of an erstwhile old family physician, has been "humanity's staunch friend" for over 100 years, and its great army of users, thankful for its wonderful relief, has grown to include the most sensitive of the human race.

and an evil looking one he was with his
black eye, red nose, dented hat and an
old bandana tied round his neck. Before
the meeting he called at the home of a

wanting for one of the members, who was

eat. "No sir" replied the young lady
in a trembling voice, "I do not keep
house, I just board here" and closed the
door.

What was her surprise
an hour later to find that her
partner at last. Anyway she was
lipped to know that no such horrible
tramp was around town and all agreed

JOSEPH ANDREWS' LETTER

Interesting Incidents Concerning His
Visit; Many Changes in the Frye-
burg Villages; Reminiscences of 50
Years Ago, etc.

The old farm where Caleb Swan pitch-
ed tent 150 years ago, in 1766, is
much the same when I first remember
it about 67 years ago, and I believe, but
am not sure, that it has been in Swan-
Ballard family ever since. Mr. and Mrs.
Ballard are hard working, industrious
people and have raised up a family of
which they may well feel proud. They
have a neat house, a good herd of cat-
tle, a fine flock of chickens and a well
filled barn. I noticed two fine white
siles in the pig pen. May peace, plenty
prosperity and good health be theirs for
many years to come.

The fine electric power plant at the
falls has been enlarged and very much
improved since I was there four years
ago and I should judge it to be a good
investment for the owners, and a great
convenience to all the people in town and
country for many miles around.

On the morning of Sept. 3d, I left El-
more West Fryeburg for a walk
around the big house in Fryeburg and
three days' visit with friends in the
city. The harbor and Fish St., I passed
the little white schoolhouse which has
stood there for a long, long time, also the
site of the old Wiley tannery and about
Haley fine old family home, now in the
hands of strangers. Many changes have
been made in the place and its name
changed to Riverside Farm I believe.

When I visited the Hales for the last
time, about 24 years ago, Mr. and Mrs.
Haley and Uncle Amos were running the
farm all alone. For summer visitors
they had their daughter, Fanta and one of
her daughters from Portland and Mrs.
Haley's brother, John Colby and wife
from Chicago. Across the way and ten
or fifteen rods distant lived Mrs. Osborn
Charles and daughter Olive, and son-in-
law, Willard Mansfield, on a small farm
owned by them. I remember that I had
a very pleasant visit on that occasion,
and I note with sadness that of the ten
that I met then, only three are living
now.

Within a mile or so of Mud City I
passed the neat little Universalist Chapel
erected in 1836 and not much further
downtown the neatly kept burying ground.
Further on in the edge of the town at
the hospitable home of Mr. and Mrs. Gray
and wife (nee Julia Heald) I tarried for the
day and night. They have a fine home
and a large farm. They were all alone
and prospering with plenty of hard work
to do. They would like to sell the place
and retire. I have since learned that
the place was sold. With Mr. Gray I
visited the corn canning factory just out-
side of the village which had just started
up and watched with interest the process
of canning one of Maine's most noted
products, Sweet Corn. My second day
and night I enjoyed very much at the
home of Leonard Andrews and wife (nee
Amelia Heald). Their son, Langley, a
very promising young man, was at home.
He was employed as weigher if I remem-
ber right at the canning factory.

My third day was spent with the fam-
ily daughter and more convenient to
church and town, they bought a nice lit-
tle home at the Harbor and moved in
from the farm. They still keep the farm
in Stow which we visited that day, also
their fine interval field near the Harbor.
They own valuable timber land and farm
land and have money in the bank and are
prospering. I found his mother Mary,
87 years of age, quite smart for a woman
of her age, clear of mind and able to do
light house work. The younger Mrs.
Kimball had undergone a serious surgical
operation not long before and was slowly
recovering and able to do light house-
keeping. Mr. Kimball insists that I save
him from going to the hospital. He has
Moses Kimball, who is often work for us
on the farm. Uncle Isaac always kept a
scrub bull on the place. At that time he
had raised two, they were three or four
years old and with them we did all our
plowing and other farm team work. One
day Joe and I were teasing one of the
bulls in the barn yard, when he drop-
ped his head and to affect his other leg,
full tilt, and was close to his head when I
threw a large rock which I chanced to
have in my hand, with all my might and
as a matter of good luck it struck the bull
squarely in the head and stopped his
mad rush. You better believe we did not
know any more with that animal that day
or ever after.

(To be continued)

LOVELL

Henry W. McAllister

On Saturday afternoon, March 24, at
his home in the village, Henry W. Mc-
Allister passed from this life to the great
beyond, after four months of sickness.
Although friends knew he never would
get well again, the end came as a sudden
shock to the family, and to his friends.
The floral tributes were beautiful and
in silent tones, spoke the love and
esteem of his fellow townsmen.

Mr. McAllister belonged to the local
Lodge of Masons and to Kezar Lodge of
Old Fellows at No. 4, who attended the
services in a body.

Funeral services were held at his late
home Tuesday P. M. Rev. Hoyt spoke
words of comfort to the sorrowing rela-
tives and friends. The Kezar Lodge of
Old Fellows held services at his open
grave at No. 4.

Mr. McAllister leaves to mourn their
loss, a wife, who has been faithful to
him in his sickness and who has been a
good wife and mother; one son and two
daughters, an aged father and mother,
and three brothers.

All his near relatives were present, but
his mother, who is sick in bed at this
time. It seems sad to have him taken
from our midst at so early an age, but it
is the will of Him who doeth all things
well. Mr. McAllister was in his 38th
year.

MILL DESTROYED BY FIRE

The spool-mill at Lynckville, conducted by Bartlett & Elliot, burned shortly after it was shut down Monday night.

The fire had made such head way when discovered that the whistle could not be blown, and help was summoned by telephone, but owing to the innumerable nature of the contents it went like powder.

There was a load of finished spools in the mill ready to be sent to market, twenty thousand feet of new lumber in the dry house ready to come out Wednesday and three dry houses filled with stock all of which were burned.

This mill was burned thirty-five years ago to replace the one destroyed by lightning at that time. Lightning struck twice last summer, but without serious damage. The company have sustained a severe loss and the men employed are thrown out of work.

Several teams have been engaged in hauling new lumber to the mill, and there is much more being sawed which had not been delivered.

If not rebuilt the loss of this mill will be keenly felt in the village and surrounding country.

PEPSIN NUX IRON and

Sarsaparilla—Fine Course of Medicine.

Physicians and pharmacists have long known the desirability and difficulty of combining iron—a superlative tonic—in a blood-purifying, appetite-giving medicine.

The combination of the iron with Hood's Sarsaparilla has now been secured through the happy thought of prescribing Peptiron Pills in connection with the Sarsaparilla—the latter to be taken before eating, Peptiron Pills after.

In this way the two medicines work harmoniously, giving four-fold results in blood-cleansing and up-building, in very many cases.

Peptiron Pills include pepsin and iron,—note the name, Peptiron Pills,—nutrients, manganese, other tonics, digestives and laxatives.

What better course of medicine can you imagine for this season? You get blood-purifying, appetite-giving, liver-stimulating qualities in Hood's Sarsaparilla and great strength-makers in Peptiron Pills.

WHY A PIANO?

We are HAPPIEST when our lives are FULLY ROUNDED OUT by the proper experiences, and if we don't include ART in those experiences, we have missed the combination. MUSIC is just as much needed in our home—in ANY home—as different foods are at a meal. We can't get along on bread alone, or meat alone, or anything else by itself. And we can't say that we have lived up to our full measure without music. The PIANO is an essential in your home—because its results is an important part of Happiness. And to be Happy is to have secured the best that life holds.

CARD OF THANKS

We wish to extend our sincere thanks to the neighbors and friends who have so kindly remembered us this winter, for the beautiful flowers, fruit and cards; also the little children of the village for their loving messages of cheer, which have all tendered to make our life brighter.

MR. AND MRS. HARRINGTON MANN
AND DAUGHTER, PERIS.
West Paris, March 21, 1917.

WEST PARIS

Mrs. Mary Augusta Wyman
Mrs. Mary Augusta Wyman, wife of Freeman L. Wyman, passed away at her home Monday afternoon after an illness of about two months. She was born in 1838, March 23, in Woodstock. Her parents were Drusilla Fuller and Daniel Perkins. She and Mr. Wyman were married Oct. 8, 1865. They celebrated their golden wedding in 1915.

Mrs. Wyman was favored with a good education and taught school for several years during her younger years. She was a keen business woman and a great help to her husband during their early struggles on their farm on Curtis Hill and the wonderful result in apple orchard and small fruit fields of the present time can fully testify. Her winter work first was making straw hats and later she took up making May baskets, which were very beautifully decorated with paper flowers supplying all the nearby towns during the May season, requiring several hundred. She united with the North Paris Baptist church when she was seventeen years of age and her faith in God has been her hope and strength through all these years.

She was a member of Franklin Grange at Bryant's Pond almost from the earliest beginning of the Grange work, when West Paris Grange was organized, they both received a demit and joined here. She was lecturer here a several years and her original papers and poems were always helpful and appreciated. She was a member of the William K. Barrows Relief Corps of West Summer.

She will be greatly missed in all these places for she was a social person and one who was out among people just as long as she possibly could. Even when it would seem that she was too feeble to do so. She has been lame with rheumatism and growing more feeble with age for a number of years, but not confined to the house until a month or two ago, and has just grown weaker each day until the end.

She leaves beside her faithful husband, one son, Perley A. Wyman who lives on the home farm; one daughter, Cora, wife of Will B. Lurvey, died a few years ago. She also has one sister, Mrs. Hannah Bryant.

The funeral was held at the home Thursday afternoon at one o'clock, Rev. Sarah A. Robinson officiating. The tokens of friendship were many in the form of flowers, etc.

Edward Burnham went to Portland for a two weeks' vacation.
H. H. Wardwell is finishing off a rent in their house and Mr. and Mrs. Fred Smith expect to occupy it.
